

# AIRODSE LOGISTICS LTD

What makes us different

## Airodse

---

"Air, Road or Sea" – AiRodSe is a new way to expand your boundaries. We set the standards that you can go big beyond the borders. Think Logistics – Think Us – Right Choice – Right Move – We carry your trust. Airodse can fuel your logistics chain.

Airodse is a New Generation Logistics company who provide tailor-made logistics solution, whether you are looking to move your goods through Air, Road or Sea Freight, looking for the most economical, or your goods are temp-controlled, the Airodse team is on hand to help you import and export your goods in line with your specific requirements.

# Air Freight

We focus on obtaining the best value for your consignments, meeting your INCO terms and instructions. We're carrier-neutral and connected to over 200 direct airline accounts, so we can offer the most up-to-the-minute promotional and contract rates. With specialist skills and precision planning required for each consignment, our experienced staffs are on hand to plan in detail our clients' individual supply chain needs. We have clients worldwide who ask us to transport every type of commodities in various sectors like Medical, Engineering, Pharmaceuticals, Aerospace, Automotive, Exhibitions etc.

We liaise with our global partners to handle customs clearance, and road transport if required, to ensure that the commodity is delivered to the customer ASAP. Whether your consignment is a small, specialist, time-critical product – where service failure can make the difference between life and death – or the largest project cargo, requiring chartered or heavy-lift aircraft. Airoadse will ensure you get the best route to market – ensuring your merchandise arrives where and when it is needed, in perfect condition. We are also specialists in the transport of dangerous goods and have teams trained to

# Road Freight

**We** offer the best quality services all over the UK and Europe by Road, with a dedicated team of trusted hauliers and with service centres across Europe. Logistics needs intelligent management operations so that goods are at the right place at the right time in the right quality around the globe – whether this involves groupage freight operations or complete loads, standard dimensions or special consignments and regular or express services. We transport your shipment by truck from the Polar Circle to the Mediterranean or from the Algarve to the Ural Mountains using our widespread network.

We can manage complex sourcing and distribution systems and provide the same passion and care for small and medium-sized enterprises as for major corporations. Airodse handles all types of cargo and provides core services like collections, consolidation, schedules shipments, palletized goods and general cargo, CMR, tracking, POD and event management, and the packing support for the part and full loads.

# Sea Freight

**S**ea freight is the most economical way of sending large volumes of goods internationally and is one of the longest established forms of transport. If your delivery is not particularly time-sensitive, then we would recommend sea freight as a viable alternative to air freight or door-to-door courier services. as a cost-effective solution. Small businesses and individual customers may not typically consider sea freight as a viable option, as it tends to be associated with larger companies exporting high volumes of commercial cargo.

We work with all major shipping lines. Our FCL/LCL pricing is reviewed weekly, so you'll always get the latest rates. Cargo Shipments including the Out of Gauge and Dangerous goods can be arranged to any destination with proper care and safety. RORO and LOLO options for all vehicle types. With a wealth of knowledge and a strong network in these areas the company increased its capacity and now has a strong relationship with numerous ship owners to provide regular shipments utilizing a modern fleet of vessels.

# Cross Trade & other Service

**O**ur Team is experienced in a comprehensive range of 'bolt-on' services for regular and cross trade transportation – including cargo insurance, packing, container stuffing and local inland logistics. So when you need to move cargo between countries in which you are not based, we enable you to ship cargo direct from any origin to any destination. We have excellent import and export of car shipment services and customer support to make your move more safely. We give utmost care to your car delivery.

We have our own network of agents in almost every part of the world to serve our customers a reliable and flexible shifting. We do the shipment of clothing, furniture, household etc., and have experienced staff to handle the procedures with high efficiency. We have a smart team who work intellectually for the smooth performance of delivery services. It's because of the true and trustworthy services we become one of the best vehicle transporters and as a customer-first company, we still continuously try to upgrade our skill for making our customers satisfaction beyond their expectation.
